

The 1st IT Comics Contest
„(Mis)Conceptions or Reading In-between the Letters“
at VK Electronics and Informatics Faculty

DESCRIPTION

The contest is held to celebrate the **English Language Day 23 April**.

Participation: All persons (students and teachers) studying and working at EIF are eligible to participate in this contest.

Definition: A cartoon is a humorous drawing. This may be a caricature, a parody of a real situation, or simply a picture of a funny situation. The cartoon may consist of one image or take the form of a short comic strip. No moving images allowed.

Theme: Take a word or few from IT context and create a humorous situation which leads to misconception or misunderstanding : e.g., a cloud, a performance, a digit.

For more ideas check the word list below:

Cloud, digit, to run (a program), performance, library, thread (multi-thread), cell, conductor, stack (programmer), gates, chip(s), to save, to protect, flag, memory, address, bus, node, page, menu, map, coating, clock, etc.

Entries:

- Maximum 2 submissions/works per person, black and white or coloured.
- The cartoons must contain text regarding IT/computing science/electronics study field.
- Drawings should be made digitally with any computer program.
- Language: English
- Do not forget to write down your name, last name, study year, study programme and e-mail.

Participation: The participant must send his cartoons to all jury members no later than **April 05, 2019:**
